

Luigi Minervini joined Ansaldo Energia in 2004, after he had graduated in Electrical Engineering at the University of Genoa.

He has been working in Gas Turbine Engineering Department for five years where he first dealt with functional design of gas turbines and later involved as a Project Engineer in several projects worldwide.

In 2009, he joined the Sales Department of Ansaldo Energia as Sales Manager for Central and Western Europe.

Starting from 2015, he is based in Shanghai as Deputy Vice President of Sales for Shanghai Electric Gas Turbine Co., Ltd., a joint venture between Ansaldo Energia and Shanghai Electric, with the aim of supporting the growth of the Gas Turbine business in South East Asia.

From February 2021 he has been appointed as Chairman of Ansaldo Gas Turbine Technology Co., Ltd, a joint venture between Ansaldo Energia and Shanghai Electric, based in Shanghai. The company mainly deals with manufacturing and repairs of Hot Gas Parts of Gas Turbine.
