

## **THROUGH WATERS**

Art & Water keeping aside desert

**Christina Sasayiannis**

**Through Waters** Project is an artistic installation about water that will run in Beijing from September 14 to 28, 2012 at the Istituto Italiano di Cultura, Beijing.

Through the camera eye and the reflex of water, the exhibition aims at highlighting the need for a renewed dialogue between people and cultures.

**Through Waters** wants to be the eye allowing the visitors becoming the actors. Through this photography exhibition about water, cultural and geographical different realities will meet each other.

Proceeds from the exhibition will be devolved to RCMA to sustain water projects in the world.

Water enters through it in the context of a larger project that focuses on promoting the
